Handyman job and  
reference

November 4th., 1966

Handyman

Dear sir,

You might consider me as suitable for the job of handyman at your home for elderly people at Hampstead. I'm 28 years old and recently worked as caretaker of a large house in Co. Sligo, Ireland, from where I have a good reference. This work involved carrying out a lot of repairs, both inside and out, as the house was still being done up.

I'm married and have an eight year old son. My wife, Venice, is a student at the Montessori training college, Hampstead, and I was educated at Westminster school.

We recently applied for the post of caretakers of a large house owned by the British Council of Churches at Hampstead - and after being interviewed were "second choice". I think that Rev. John Weller, who knows us, would have a good word to say in our favour.

Yours sincerely,

(Gratten Puxon)

TO WHOM IT MAY CONCERN.

Mr. and Mrs. Grattan Puxon acted as caretakers for me last year at Doonagleeragh Lodge, Strandhill, Co. Sligo, to my complete satisfaction.

I found Mr. and Mrs. Puxon dependable and hard-working, and am happy to recommend them for a similar position.
